People Movers

Welcome.

Volkswagen has been building People Movers for more than half a century, so you could say we know a thing or two about how to build a good quality and practical people mover.

We offer a variety of solutions with our range of people movers: from the spacious, yet cleverly compact Caddy Maxi Life to the luxurious Multivan or the practical and economical Caravelle.

With an array of Turbo Diesel (TDI) engines that are quiet, strong and economical, Volkswagen People Movers are fast off the line and keep you moving between service stations for longer. All engines meet or exceed Euro 4 emissions standards (in fact the new Caravelle and Multivan Common Rail engines achieve the latest Euro 5 emission standards).

Furthermore, Volkswagen has an extensive dealer network consisting of over 70 dealers nationwide, so you can be sure a Volkswagen dealer is not too far away.

People Mover quick reference guide.

Glossary.

**People Movers
are nothing new to
Volkswagen. We have
been building People
Movers, campers and
memories for over half
a century.**

From the humble beginnings of the Type two with its air-cooled boxer engine and its distinctive V styling up front, the Kombi has been forever etched in people's minds as a true classic and a symbol of great times.

Technology and design has changed dramatically over the past 60 years, but the concept remains the same. Volkswagen is committed to building strong, reliable, comfortable and safe transport for you and your family.

Owning a Volkswagen People Mover is more than just owning a quality car. It's about being part of the Volkswagen family and having that common love for a legend.

The Volkswagen People Mover range.

Knowing what is important in a People Mover has been our business for more than half a century.

All this cannot be found just anywhere, it needs a company with experience, a company that has enjoyed five generations of success and a company that is known for its style while maintaining a commitment to quality.

Volkswagen People Movers offer a premium alternative to the mainstream. The Caddy Maxi Life offers seating and luggage space for up to 7 people. The Multivan adds a touch of luxury and a flexible seating concept that is considered a People Mover benchmark. The Caravelle, with seating for up to 9 and a powerful common rail TDI engine offers a practical solution for transporting large groups in comfort.

Some of the benefits unique to Volkswagen People Movers:

- Seating layouts allowing from 2-9 seats
- Range of efficient and powerful Turbo Diesel (TDI) engines
- DSG transmissions available across the range
- 4MOTION® all-wheel drive available on Multivan
- Dual front airbags and Electronic Stability Program (ESP) standard on all models
- Nationwide dealer network for convenient servicing
- 3 Year, 100,000km warranty
- Solid build quality

The **turning light**[#] integrated in the foglights, lights up curves and bends on the road when you make a turn at 40 km/h or less. This allows you to anticipate possible risks sooner and ensures that you arrive safely.

Side Assist, which helps you when changing lanes, has radar sensors to monitor traffic. When you change lanes, the system will warn you via a visual signal in the door mirrors if another vehicle is identified in the area surrounding the blind spot.

[#] Only available in Multivan and Caravelle range.

Safety is a priority.

Dual front airbags, ESP (electronic stability program), ABS and EBD: Standard across the range.

Your safety is such a vital factor that it is built-in, both with the integral construction of the vehicles, and in the features we include to protect the occupants. A long list of safety and security features applies to every vehicle.

Options such as the 4MOTION® all wheel drive system to maintain traction in poor driving conditions#, front and rear parking sensors, and anti-theft protection for added security, all offer assistance and protection when you're out on the road. Passive safety features include driver's and front passenger airbags, which are standard across the range with the option of side and curtain airbags available on all models (standard on Multivan).

These are some of the safety features available, but please refer to particular model specifications for which feature is available on which model:

- Driver and passenger airbags
- Side and curtain airbags
- Electronic Stability Program (ESP)*
- Traction Control System (TCS)*
- Electronic Brake Assist (EBA)*
- Electronic Brake Distribution (EBD)*

Add to all these features independent suspension, stable road holding and responsive engines and you can be sure that you'll be as safe as we can make you.

- 01** When the vehicle weight is transferred to the front wheels during braking, the **Electronic Brakeforce Distribution (EBD)** prevents lock-up of the rear wheels, which are under less pressure. This way, you can remain safely on course in your lane of traffic.
- 02** The **seat belt warning** reminds the driver that his or her seat belt is not fastened. An audiovisual signal is used to request that the seat belt is fastened before you start driving.
- 03** The **Electronic Stabilisation Programme (ESP)**, including hill holder, prevents the vehicle from swerving in critical driving conditions by controlled and targeted intervention in the brake and engine management. Thus, the vehicle achieves maximum directional stability.
- 04** The **Anti-lock Braking System (ABS)** prevents wheels from locking up and therefore significantly improves the manoeuvrability of the vehicle when braking hard.
- 05** The **Brake Assist system** recognises the speed at which the brake pedal is actuated. In the case of reflex or emergency braking, the system applies full brake pressure more rapidly.

* Please refer to the glossary on page 36 of this brochure. # Only available in Multivan range.

The Volkswagen Caddy Maxi Life.

No matter whether your journey takes you on holiday or to the kid's cricket, with a luggage compartment length of no less than 62cm and seven seats the Caddy Maxi Life offers enough storage space for all of your passenger's suitcases, bags or sports gear.

A luggage compartment capacity of up to 530 litres or 1350 litres with the third row seat removed means the Caddy Maxi Life is a very capable People Mover.

Once everything has been packed into the Caddy Maxi Life, your passengers have easy access to their seats through the two sliding doors.

Main features of the Caddy Maxi Life include:

- Carries up to seven people
- Fuel efficient Turbo Diesel (TDI) engine
- Dual sliding doors
- Rear seats foldable and removable
- Optional RNS510 touch screen satellite navigation
- Anti-lock Braking System (ABS)
- Electronic Stability Program (ESP)
- Park Distance Control (PDC)
- Automatic on/off headlights
- Automatic on/off windscreen wipers
- Automatic dimming rear view mirror
- Dual Air bags

More detailed specifications and options can be found on the following pages.

Caddy Maxi Life standard specifications.

Exterior.

- 16" Alloy wheels
- Electrically controlled and heated door mirrors:
 - convex on passenger's side
 - aspherical on driver's side
- Body coloured bumpers, mirrors and door handles
- Protective side moulding
- Dual sliding rear doors
- Integrated front/rear fog lights
- Part galvanised body
- Dual reflector headlights with polycarbonate lens

Interior.

- Seating Layout: 2 / 3 / 2
- Drawers under the front seats
- Height adjustable head rests for all seats
- Driver and passenger vanity mirrors
- Height and rake adjustable steering wheel
- 2nd Row – 3 seater bench with 60:40 split
- 3rd Row – 2 seater bench, folding and removable
- Rigid luggage cover
- 2 x Passenger assist grips
- 4 x Grab handles
- Height adjustable front seats
- Storage:
 - Above-dash storage trays
 - In-dash open storage box
 - Storage pockets in doors
 - 4 x Storage nets in ceiling
 - Large overhead storage compartment

Functional.

- Auto on/off headlights
- Auto on/off windscreen wipers
- Auto dimming review mirror
- Coming/leaving home function (timed headlights)
- "Climatic" air conditioning system
- Rear directional vents
- Electric windows with one touch control for automatic up/down
- Sliding rear windows
- Cruise control
- Radio/CD/MP3 player with 6 speakers
- Remote central locking
- Parking radar display
- Multifunction computer
- Tachometer
- Warning tone for 'lights on' and 'seatbelt'
- Windscreen wiper with variable intermittent delay
- 12V power supply (x 3)

Safety and security.

- Electronic Stability Program (ESP)
- Anti-lock Braking System (ABS)
- Brake Assist (BA)
- Anti-Slip Regulation (ASR)
- Driver and front passenger airbags
- Front side airbags for driver and front passenger
- Park Distance Control (PDC)
- Anti-theft immobiliser protection system
- Remote central locking
- Full-size spare wheel
- First aid kit with warning triangle
- Locking fuel cap
- 3-Point seatbelts for all occupants
- Child seat anchors points with ISOFIX
- Child lock
- 4 x Tie downs in boot

Technical.

- Suspension:
 - Independent front McPherson struts
 - Telescopic shock absorbers
- Hydraulic brake system with ventilated front discs
- Rear disc brakes
- Power steering
- Tyres: 205/55 R16 94H
- 60 litre fuel tank

Adult legroom and space for up to seven people

Direct Shift Gearbox (DSG).

DSG is a manual gearbox in which the gearshifts are controlled electronically. What makes the DSG unique is that it has two separate gear sets operated by two wet multi-plate clutches. The benefit is that one gear set and clutch is engaged driving the vehicle with the second clutch having already pre-selected the next gear awaiting for power to be transferred. As the next gear has already been pre-selected prior to power being applied, the gear change only takes 3-4 100ths of a second. There is virtually no interruption to power, traction or acceleration. The DSG also offers Tiptronic gear selection and sports mode.

Caddy Maxi Life upholstery

The Volkswagen Multivan.

Every day is different and this is why the Multivan is a vehicle with a difference. With its outstanding space concept and tremendous variability you are well prepared for whatever you are planning.

Main features of the Multivan include:

- Carries up to seven people
- Powerful common rail 2.0L TDI engines with 103kW/340Nm (Comfortline) and 132kW/400Nm (Highline) (132kW optional in Comfortline)
- Electronic Stability Program (ESP) with ABS and brake assist
- Driver and passenger front and side airbags with curtain airbags
- Front and rear parking sensors
- Rotating second row seats with integrated seatbelts
- Multifunction table (collapsible, sliding and removable) (optional for Comfortline)

Multivan Comfortline standard specifications.

Exterior.

- 16" "Cartagena" Alloy wheels
- Electrically controlled and heated door mirrors:
 - convex on passenger's side
 - aspherical on driver's side
- Galvanised body
- Body coloured bumpers, mirrors and door handles
- Halogen twin headlights with clear polycarbonate lens
- Protective side moulding
- Dual sliding rear doors

Interior.

- Seating Layout: 2 / 2 / 3
- Height adjustable head rests for all seats
- Driver and passenger illuminated vanity mirrors
- Height and rake adjustable steering wheel
- 3-Spoke leather trimmed steering wheel
- Leather gearknob and handbrake lever
- 2 x front map lights
- 4 x reading lights for passengers
- Lockable glovebox
- 3-Zone climate control air conditioning
- Radio/CD/MP3 player with 8 speakers
- Seats in cloth trim
- Interior roller sun blinds in passenger compartment

Functional.

- Cruise control
- Auto dimming rear view mirror
- 12V socket in the front, middle and rear
- Multifunction trip computer
- Electric front windows with one touch control
- Sliding rear windows
- 2nd Row
 - 2 Individual captains chairs with adjustable armrests
 - Rotating captains chairs
 - Reclining function
 - Sliding captains chairs on rail system
 - Chairs removable from rail system/vehicle
 - Underseat drawer system in 2nd row
- 3rd Row
 - 3 Seater bench seats
 - Sliding bench seats on rail system
 - Bench removable from rail system/vehicle
 - Bench collapsible into temporary double bed
 - Reclining function

Safety and security.

- Anti-Lock Braking System (ABS)
- Electronic Stability Program (ESP)
- Electronic Differential Lock (EDL)
- Anti-Slip Regulation (ASR)
- Rain sensing windscreen wipers
- Brake Assist (BA)
- Dual front airbags
- Side airbags for driver and front passenger
- Side Curtain airbags in passenger cabin
- Rigid safety cell with front and rear crumple zones
- Front height adjustable seat belts with pre-tensioners and force limiters
- 3-Point seat belts for all occupants
- Remote central locking
- Automatic locking after take off (programmable)
- Electric child safety locks on rear doors
- Child seat anchors points with ISOFIX
- Park distance control (PDC) for front and rear
- Full-size spare wheel

Technical.

- Suspension:
 - Independent suspension front and rear
 - Front McPherson struts with coil springs and gas dampers
 - Semi trailing rear axle with coil springs and anti-roll bar
- Hydraulic brake system with ventilated front discs
- Power steering
- Tyres: 215/65 R 16C

Highline (over Comfortline).

- Front fog lights
- Dark tinted windows in the passenger compartment
- Satellite Navigation with touchscreen
- Seats in leather trim
- Seat heaters for driver and front passenger
- Alarm with internal monitoring
- Dual power sliding doors with remote function and safety kickback
- 17" "Neva" Alloy wheels
- Tyres: 235/55 R 17
- Premium Bluetooth® phone kit* and leather multifunction steering wheel
- Multifunction table[^]
 - Table on rail system
 - Collapsible and removable
 - 4 x Cupholders
 - Internal storage compartments
 - Rotating tabletop
 - Magazine holder

* Only works with limited range of mobile phones ^ Standard in Highline, optional Comfortline

When not just all hands but all tyres must join in.

The permanent all-wheel drive 4MOTION: For more safety on all terrains.

The permanent all-wheel drive 4MOTION delivers power to all four wheels as required, which facilitates optimal manoeuvrability and steering on all terrains. 4MOTION ensures good traction and directional stability, even in poor surface conditions. And for those of you who often drive off the beaten track, a manual differential lock for the rear axle is available as an option.

The Volkswagen Caravelle.

Whether you have a big family, friends or have a business need, the Caravelle is the right vehicle to suit your transportation requirements.

Main features of the Caravelle range include:

- Carries up to nine people
- Long wheelbase
- Twin sliding doors with sliding windows
- Common rail TDI engine with 103kW/340Nm
- Electronic Stability Program (ESP) standard
- Anti-lock Braking System (ABS) with brake assist
- 7 speed DSG transmission
- Flexible seating system

More detailed specifications and options can be found on the following pages.

Offering up to nine spacious seats and the flexibility of a smooth 103kW Turbo Diesel (TDI) engine, the Caravelle offers high volume transport at a low cost.

Caravelle standard specifications.

Exterior.

- 16" Steel wheels
- Electrically controlled and heated door mirrors:
 - convex on passenger's side
 - aspherical on driver's side
- Body coloured exterior mirrors
- Halogen twin headlights with clear polycarbonate lens
- Mudflaps
- Dual sliding rear doors
- Galvanised body

Interior.

- 9 Seater layout: 2 / 2 / 2 / 3
- Height adjustable head rests for all seats
- Driver and passenger illuminated vanity mirrors
- Height and rake adjustable steering wheel
- 3-Spoke steering wheel
- Climatic control air conditioning
- Magazine pocket behind seats
- Lockable glovebox
- RCD210 Radio/CD/MP3 player
- Seats in cloth trim
- Interior roller sun blinds in passenger compartment
- 4 x Reading lights for passengers
- 5 x Independent directional air vents

Functional.

- 2nd Row seats
 - Collapsible and removable
 - 2 x Child seat anchor points
- 3rd Row seats
 - Collapsible and removable
- 4th Row seats
 - Collapsible and removable
- 12V sockets in the front, middle and rear
- Multifunction trip computer
- Driver's seat height and lumbar adjustment
- Electric front windows with one touch control
- Sliding rear windows
- Recycle air function
- Variable speed adjustment windscreen wipers
- 8 x Passenger assist grips
- 3 x Easy entry grab handles

Safety and security.

- Anti-Lock Braking System (ABS)
- Electronic Stability Program (ESP)
- Electronic Locking Differential (EDL)
- Anti-Slip Regulation (ASR)
- Brake Assist (BA)
- Dual front airbags
- Rigid safety cell with front and rear crumple zones
- Full size spare wheel
- 3-Point seat belts for all occupants
- Remote central locking with deadlock
- Automatic locking after take off (programmable)
- Child seat anchors points with ISOFIX on 2nd row seats

Technical.

- Suspension:
 - Independent suspension front and rear
 - Front McPherson struts with coil springs and gas dampers
 - Semi trailing rear axle with coil springs and anti-roll bar
- Tyres: 215/65 R 16C

Glossary.

ABS Anti-lock Braking System.

It can be very challenging to stop a van quickly on a slippery road. ABS helps take a lot of the effort and stress out of a situation. In fact, even an average driver can stop more effectively with ABS than a professional driver without.

The theory is simple, a wheel that's skidding has less traction than a wheel that is not. For example, if you try to pull away too quickly on ice your wheels spin, meaning no traction. Simply, ABS prevents the wheels from skidding whilst you slow down, which means you slow faster and are able to steer while you come to a stop.

EDL Electronic Differential Lock.

Electronic Differential Lock uses the ABS sensors at driven wheels to determine if one of the wheels is spinning faster than the others. It uses the ABS system to momentarily apply braking to balance out the traction to the driven wheels. Front wheel drive vehicles typically have the most recognisable feel, as they make the typical ABS type pulsating sound when activated during wheel spin.

ESP Electronic Stabilisation Program.

When the vehicle is driving in situations close to its limit ESP makes it easier to control, providing greater directional stability. By applying the brakes on individual wheels it generates forces that help to keep the vehicle moving in the right direction. The system is permanently active and utilises the ABS, EBD, EDL and TCS safety systems. However, the system cannot override the physical limits of the vehicle. If the driver pushes the vehicle beyond its limits ESP will not prevent an accident.

ARP Active Rollover Protection.

As part of the ESP system, ARP recognises an impending rollover and rapidly applies braking to selective wheels to resist the occurrence of rollover. Especially useful on a vehicle with a high centre of gravity such as a van. ARP detects excessive lateral force, for example driving too fast into a corner, which may result in a rollover.

TCS Traction Control System.

Traction control helps limit tyre slip on slippery surfaces while accelerating, thus helping the driver have greater control. Using sensors at each wheel, the system recognises when traction has been lost and it momentarily applies braking to that wheel to regain the traction.

Traction control does not have the ability to increase traction; it just attempts to prevent a vehicle's wheels from spinning. In some vehicles, TCS is also known as ASR.

EBA Electronic Brake Assist.

The Electronic Brake Assist system helps to shorten stopping distances, especially when fully laden. In an emergency when full brake pressure is required, a sensor recognises this and uses a hydraulic booster to aid the driver.

EBD Electronic Brakeforce Distribution.

EBD helps prevent the rear-end from breaking away under heavy braking by ensuring maximum braking performance at both the front and rear wheels. Brake 'fading', as a result of overheating, is also counteracted.

DPF Diesel Particulate Filter.

A Diesel Particulate Filter is a system for removing particulates from diesel exhausts and is a major step forward in the reduction of particulate contaminants in the environment.

Passive safety.

Passive safety refers measures that help protect the occupants against injury or help reduce injury severity in the event of an accident. Passive safety measures include the safety belt system, the airbags*, the rigid occupant cell and the crumple zones at the front of the vehicle. Safety features built-in to the body, front and rear, help dissipate most of the impact energy. All help provide excellent all-around protection.

* Airbags are supplemental restraints only and will not deploy under all accident circumstances. Always use seat belts and child seating appropriate for their size and age. All child seating must meet the current legislation.

Owning a Volkswagen Vehicle.

Volkswagen New Vehicle Warranty

Every new Volkswagen People Mover is covered by a 3-year / 100,000km (whichever occurs first) manufacturer's warranty, which includes Volkswagen Assist (24hr roadside assistance). Every new Volkswagen People Mover is also covered by a 3-year paintwork and 12 year anti-corrosion perforation warranty.

Volkswagen Assist – 24 hour roadside assistance

As a valued customer, you can be assured that wherever you travel within Australia, you will have access to roadside assistance, 24 hours a day, 365 days a year. This is complimentary for the duration of the vehicle's original Volkswagen warranty period. You will receive help in the event of a breakdown or accident and if required, your vehicle will be mobilised or transported to an Authorised Volkswagen Repair Centre.

Volkswagen Extended Warranty

Why not continue the confidence of a Volkswagen Warranty by purchasing a Volkswagen Extended Warranty. For further details on this option, please contact your local Volkswagen Dealer for more details.

Volkswagen Service

Your Authorised Volkswagen Service Centre is part of Volkswagen's global Quality Management System, ensuring all dealers are certified to ISO 9001:2000 – an internationally recognised Quality Standard. Authorised Volkswagen Service Centres have factory trained Technicians equipped with the very latest diagnostic equipment, specialist tooling and Volkswagen Genuine Parts. An Authorised Volkswagen Service Centre undertakes work in accordance to factory specified guidelines and maintenance schedules.

Volkswagen Genuine Parts®

Volkswagen Genuine Parts® are designed for your vehicle and approved by Volkswagen, with particular regard to safety. The workmanship, dimensional accuracy and materials used in these parts comply with factory specifications. To ensure safety and reliability, Volkswagen recommends the use of Volkswagen Genuine Parts®. Volkswagen Authorised Dealers offer a 2-year warranty on Genuine Parts from the date of purchase.

Legend

* According to ADR 81/02 fuel consumption.

** Performance will vary depending on vehicle payload and accessories.

† Trailer weight based on 12% gradient start angle.

‡ Kerb weight includes full tank of fuel and one 75kg driver.

Australian Environmental Strategy.

Steps Towards Sustainability

To Volkswagen Group Australia, sustainability means taking responsibility for the environment, as well as actively participating in the development of society. We believe sustainability offers opportunities for long-term innovations, new approaches, efficient technologies and ground-breaking products. Our organisation has established an Environment Committee to manage our business activities and reduce our environmental impact.

Carbon Management Strategy

We have developed a Carbon Management Strategy to identify and manage carbon emissions from our business activities. Our fuel usage from company cars and energy usage were calculated to measure our Carbon Footprint, and comprehensive carbon reduction targets have been set. Volkswagen Group Australia aims to downsize its environmental footprint in the future.

Carbon Management Program

Our range of vehicles has earned a reputation for fuel efficiency. We're working to extend that efficiency throughout our entire operational structure. We've initiated a Carbon Management Program, to recommend changes to achieve emissions reductions. We're making real changes in reducing our carbon footprint.

Environmentally Friendly Engines

Our TDI diesel engines use less fuel and have lower emissions, with the benefits of high torque and performance. Our diesel particulate filter extracts soot from vehicle exhaust emissions. Numerous engines already fulfill the stringent forthcoming Euro 5 emissions standard.

Environmentally Friendly Transmission

Our dual-clutch Direct Shift Gearbox (DSG) provides the comfort of a conventional automatic transmission and the dynamic drive of a manual transmission. DSG boasts significantly reduced fuel consumption compared to a conventional automatic transmission.
